MEMORANDUM FOR: Deputy Director (Support)

SUBJECT : Additional Motor Vehicles - Fiscal Year 1957

1. In reviewing the Annual Motor Vehicle Report, required by General Services Administration under GSA Reg. 1-V-101.4, and prepared by the Transportation Division, Office of Logistics, we find that the motor vehicle fleet was increased by fourteen (14) additional vehicles during FY 1957. The above mentioned vehicle report covers only the overt vehicles in the continental U. S.

2. The budget for FY 1957 provided for replacement of vehicles, but no provision was made for additional vehicles. As you know the Bureau of the Budget scrutinizes this item very carefully in view of the over-all sensitivity towards enlarging the number of vehicles in any government area. In addition, the overt vehicles are set forth in the budget indicating whether they are replacements or additional in conformance with Bureau of the Budget Circular A-11.

3. There is attached for your information a schedule reflecting the offices that acquired the vehicles, type of vehicle, method of procurement, and the use to be derived from the vehicles.

Attachment

Jim:

This is an item which we must watch very carefully. I know of the necessity in some of these cases but was not aware of our approval of 14 additional vehicles.
